SAFETY DATA SHEET
SUPERIOR NO. 435 (3:1)
DATE REVISED: January 28, 2020

SECTION 1 -- IDENTIFICATION
Product Name/Part number: Superior No. 435 (3:1)
Recommended use: Soft Soldering Flux
Manufacturer: Superior Flux & Mfg. Co.
Address: 6615 Parkland Blvd
City: Cleveland
State: OH
ZIP: 44139
Emergency Contact: CHEMTREC
Address: 6615 Parkland Blvd
City: Cleveland
State: OH
ZIP: 44139
Emergency Phone: 1-800-424-9300
For other info: (440) 349-3000

SECTION 2 – HAZARD(S) IDENTIFICATION
Classification of the substance or mixture
GHS Classification in accordance with OSHA HCS (29 CFR 1910)
Flammable liquids (Category 3) H226
Corrosive to metals (Category 1) H290
Acute toxicity, Oral (Category 4) H302
Acute toxicity, Inhalation (Category 4) H332
Acute toxicity, Dermal (Category 4) H312
Skin corrosion (Category 1B) H314
Serious eye damage (Category 1) H318
Specific target organ toxicity – Single exposure,
  Respiratory system (Category 3) H335
Specific target organ toxicity – Single exposure,
  Central nervous system (Category 3) H336
Acute aquatic toxicity (Category 2) H401
Chronic aquatic toxicity (Category 3) H412

See below for full text of H-Statement
GHS Label Elements, including precautionary statements
Pictogram(s):
Signal Word: Danger
Hazard Statement(s)
H226 Flammable liquid and vapor
H290 May be corrosive to metal
H302+H332+H312 Harmful if swallowed, inhaled or in contact with skin
H314 Causes severe skin burns and eye damage
**H318 Causes serious eye damage
H335 May cause respiratory irritation
**H401 Toxic to aquatic life
H412 Harmful to aquatic life with long lasting effects
**Can be omitted from label due to presence of stronger statement.

Precautionary statement(s)
P210 Keep away from spark and open flames. No smoking.
Keep container tightly closed
Keep only in original container
Use only non-sparking tools.
Take precautionary measures against static discharge.
Avoid breathing fumes, gas, mist, vapors, or spray
Wash skin thoroughly after handling
Do not eat, drink, or smoke when using this product.
Use only outdoors or in a well-ventilated area
Avoid release to the environment
Wear protective gloves, protective clothing, and eye or face protection.

IF SWALLOWED: Call a POISON CENTER if you feel unwell.
Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.
Call a POISON CENTER if you feel unwell.
If eye irritation persists: Get medical advice
In case of fire: Use dry sand, dry chemical, or alcohol-resistant foam for extinction
Wash contaminated clothing before reuse
Absorb spillage to prevent material damage
Store in a well-ventilated place. Keep container tightly closed. Keep cool.
Store locked up
Dispose of contents and container to an approved waste disposal plant.

Other hazards - None

SECTION 3 – COMPOSITION INFORMATION

SECTION 4 – FIRST AID MEASURES

Description of first aid measures

General: Move out of dangerous area. Show this safety data sheet to the doctor in attendance.

Inhalation: If breathed in, move to fresh air. If not breathing, give artificial respiration. Get medical advice.

Skin: Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Consult a physician.

Eyes: Continue rinsing eyes during transport to hospital. Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Most Important Symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in section 2 (labeling)

SECTION 5 – FIREFIGHTING MEASURES

Suitable Extinguishing Media: Use carbon dioxide or dry chemical

Special Hazards: No data available

(Special) Advice for Firefighters: Wear self-contained breathing apparatus for firefighting if necessary. Use water spray to cool unopened containers

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions and Equipment and emergency procedures: Use personal protective equipment. Avoid breathing gas, vapors or mist. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas.

See section 8 for personal protection.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

In Case Material is spilled: Contain spillage, and then collect and place in container for disposal according to local regulations. Keep in suitable, closed containers for disposal.

See section 13 for disposal

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling: Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Keep away from oxidizing agents.

For full precaution statements see Section 2

Storage Requirements: Keep container tightly closed in a cool, dry and well-ventilated area. Containers which are opened must be carefully resealed and kept upright to prevent leakage.
SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

CONTROL PARAMETERS

OSHA Permissible Exposure Limit (PEL): 3 mg/m³
ACGIH Threshold Limit Value (TLV): 3 mg/m³

Engineering Controls: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the workday.

Special Engineering Control Needs: Explosion proof and non-sparking electrical equipment

Eye/Face Protection: Tightly fitting safety goggles. Faceshield. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

Skin Protection: Handle with gloves. Use proper glove removal techniques (without touching glove’s outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good lab practices. Wash and dry hands after handling.

Body Protection: Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory Protection: Where risk assessment shows air-purifying respirators are appropriate, use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of Environmental Exposure: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.
### SECTION 9 - PHYSICAL AND CHEMICAL CHARACTERISTICS

### SECTION 10 - STABILITY AND REACTIVITY

**Reactivity:** No data available  
**Stability:** Product is stable under recommended storage and handling conditions  
**Possibility of hazardous reactions:** Hazardous polymerization will not occur  
**Conditions to Avoid:** Extreme heat  
**Incompatibility:** Strong oxidizers, metals, rubber  

**Decomposition Products** Under fire conditions: Carbon oxides (CO, CO₂), Nitrogen oxides (NOₓ)  

*In the event of fire: See Section 5*

### SECTION 11 - TOXICOLOGICAL INFORMATION

**Likely Route(s) of Exposure:** Inhalation, ingestion, skin and eye contact  
**Acute Toxicity:** No data available  
**Skin Corrosion/Irritation:** No data available  
**Serious Eye Damage/Irritation:** No data available  
**Respiratory or Skin Sensitization:** No data available  
**Germ Cell Mutagenicity:** Not classified  
**Carcinogenicity:**  

- **IARC:** No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.  
- **ACGIH:** No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.  
- **NTP:** No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.  
- **OSHA:** No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA  

**Reproductive Toxicity:** Not classified
Specific Target Organ Toxicity (Single Exposure): No data available
Specific Target Organ Toxicity (Repeated Exposure): No data available
Aspiration Hazard: Not classified
Additional information: burning sensation, Cough, wheezing, laryngitis, Shortness of breath, spasm, inflammation and edema of the larynx, spasm, inflammation and edema of the bronchi, pneumonitis, pulmonary edema, Material is extremely destructive to tissue of the mucous membranes and upper respiratory tract, eyes, and skin.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

SECTION 12 - ECOLOGICAL INFORMATION
Toxicity No data available
Persistence and degradability No data available
Bioaccumulative potential No data available
Mobility in soil No data available
Results of PBT and vPvB assessment PBT/vPvB assessment not available as chemical safety assessment not required/not conducted
Other adverse effects Toxic to aquatic life. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

SECTION 13 - DISPOSAL CONSIDERATIONS
Waste treatment methods
Product Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.
Contaminated packaging Dispose of as unused product.

SECTION 14 - TRANSPORTATION
D.O.T. (US)
Proper Shipping Name: Flammable Liquid, Corrosive, NOS (Contains Isopropanol, Glycolic Acid)
Identification Number: UN2924 Hazard Class: 3 (8)
Packing Group: II D.O.T Label Req. Info: Flammable Liquid, Corrosive

SECTION 15 - REGULATORY INFORMATION
SARA 302 Components No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.
SARA 313 Components This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.
SARA 311/312 Hazards Fire hazard, Acute health hazard
California Proposition 65 Components This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

THIS PRODUCT IS ROHS 3 COMPLIANT
SECTION 16 - OTHER INFORMATION

Further information:
Judgments as to the suitability of information herein or the purchaser's purposes are necessarily the purchaser's responsibility. The above information does not represent any guarantee of the properties of the product. It is believed to be correct, but does not purport to be all inclusive and should be used only as a guide. Reasonable care has been taken in the preparation of this material, and is based on the present state of our knowledge.

Superior Flux & Mfg. Co. shall not be held liable for any damage resulting from handling or from contact with the above product. There are NO WARRANTIES, NO REPRESENTATIONS AND NO RESPONSIBILITY AS TO THE ACCURACY OR THE SUITABILITY OF THIS INFORMATION FOR ANY PURCHASER'S USE OR FOR ANY CONSEQUENCE TO USE.
